

I know a lot of you are enjoying time in your garden and going for walks with your family. When you do one of these complete the tally chart below. Make a tally mark when you see the animal and then total at the end.

You can then make a bar chart showing the results. Remember how we label each axis and give the chart a title.

<u>Animal</u>	<u>Tally</u>	<u>total</u>
Butterflies		
Bees		
Frogs		
Wasps		
Spiders		
Woodlouse		
Birds		
Ladybird		
Dogs
