

Hello Year 4,

We hope you are all staying safe at home. We understand that it may be strange having to learn from home once again, however your teachers are here to help you and ensure your learning continues. We have managed to gather up all the work you would have been doing in school this week (and a little extra) into this pack so that you won't miss anything.

Here's a few helpful tips to keep you happy, healthy and ready for when school resumes normally:

- Keep your morning routine the same - Wake up when you would usually wake up for school, have a good breakfast and be ready to learn.
- If possible, talk to your friends and classmates about the work set - Working together (virtually) can be a great way to make learning more fun!
- Take breaks often - Please make time for yourself, have a 10-minute coloring session or a 15-minute break walking the dog with your parent - these will help you learn and stop you from feeling so tired.
- Don't be afraid to ask for help - Just message us on dojos and we will help you in any way we can (that's what we are here for).

We as teachers are already so excited for the next time we can all be together in the classroom again. See you soon!

### **This week's timetable:**

Tuesday: English, maths and science

Wednesday: English, maths and PE

Thursday: English, maths and Art

Friday: English maths and (History for 4MP) (RE for 4D)
